# Personal Projects

## Project 1:

**Name of the Project: AKKAR RAHHAL HOSPITA**

**Description:**

**Time of project : 6 month**

**Member of group : 3**

**purpose:**

- Enhance the security of the network.
- Improve the dynamic of the net.
- Resolve the problems of the net.
- Making great net to provide the Hospital by the best services forever

## Project 2:

App Computer Software in C#.net. It is a data entry application it is named “Dictionary” This app used to input a word and its fields like: translation, synonym …etc. additional of the Output function. It makes the

data of the user safety by the login tool, backup, and restore data. Plus, the perfect view of the data and many other tools like update, delete, search …etc.

### Project 3:

This project is about a pharmacy, it manages its products and Helps the user of the system in many things. I use C#.net programming language.
It is named "Smart_Pharmacy".
Using this system, we can manage all items and users … The intelligence used in the date of the products and the duration of the prescription. It compares the expired date of the product with the current date and calculates the time between them, then compares it with the date of prescription and alerts the user if duration of prescription greater than the difference between the two date … And it has other functions.

### Project 3:

It is a web calculator using ASP.NET programming language.

### Project 4:(Graduation Project)

LSMS (Legend of Security Management System) is an internal management desktop application to manage and control (Add, Edit, Show, Print, Alarm … etc.) the work tasks and products of a foundation. It has many features like manage employees, customers, services and other. Plus, the flexibility of the application to help the user to follow the work tasks in simple mode. Plus, of that there are the Accounting tool. It contains three main parts Accounting, Salary, and Billing.

### Project 5

A_MS_PHD (PHD and master Archive) is an internal management desktop application to manage and control (Add, Edit, Show, Print, Alarm … etc.) the work tasks and thesis of Hight education level MS and PHD and manage all tasks in this faculty like students registration , interview , reports and others…. It has many features like manage thesis, reports, students and professors, and other. Plus, the flexibility of the application to help the user to follow the work tasks in simple mode. Plus, of that there are the alarming tool. To alarm about all dangerous things or a warming task or to define the duties and rights of the professor.
**AND OTHER PROJECTS …**

## Soft Skills

- Web Page Design using HTML, XML, ASP.net, PHP, and FrontPage.
- Power User for MS-Windows, Software, and Hardware.
- Power User for Microsoft Office Programs (MS Access, Excel, Word, and Power Point)
- Power User of Adobe Photoshop, Macromedia Flash, Illustrator
- Programming languages: C++, ASP.net, PHP, SQL, C #.net, Java…
- Software Tools: Arduino IDE, MATLAB, NetBeans, Packet tracer, visual studio, Sql server management studio…
