WORK EXPERIENCE:

- *Volunteer At Nusaned NGO* April 2024_ Till now
 - Help raise awareness about the NGO's cause or campaign. They might organize events, rallies, or social media campaigns to spread information and mobilize support for issues the NGO addresses. Teaching students how to educate surgical patients and their families about the surgical process, postoperative care instructions, medication management, and signs of complications.
 - Assist with research projects or program evaluations, helping the NGO to assess the effectiveness of its programs and make data-driven decisions.
 - Can provide invaluable support in areas where the NGO lacks resources or expertise.
 - Often provide crucial administrative support, helping with tasks such as data entry, answering phones, managing emails, or organizing files. This allows paid staff to focus on more specialized tasks.
- *Medicine department at the Islamic Charity Hospital* Jul 2019 _ Jul 2021
 - Educating patients and family members on treatment and care plans, as well as answering their questions.
 - Assessing, observing, and speaking to patients.
 - Recording details and symptoms of patient medical history and current health preparing patients for exams and treatment.
 - Administering medications and treatments, then monitoring patients for side effects and reactions.
 - Creating, implementing, and evaluating patient care plans with the medical team ➤ Performing wound care, such as cleaning and bandaging them.
- *Sanibel Al Noor association of Tripoli* 2017 _ 2018
 - Providing expert care and support to orphaned children.
 - Meeting the operational needs of orphanage facilities with proficiency.
 - Orchestrating educational and recreational initiatives for children. ➤ Executing assigned tasks with a focus on excellence.

- *Home Care Nurse 2016_2018*

- Thorough client assessments, continuous monitoring, and expert medication management.
- Proficient wound care, medical procedures, and patient education.
- Offering empathetic emotional support to clients and families.
- Meticulous documentation of care and progress
